- Read the contents of activities and CRM records using Summary's optional, user-configurable auto-preview pane
- Quickly filter the information displayed by object type, activity type and date range
- See all Activities and Notes associated with the Originating Lead for Contact, Account and Opportunity records that have been converted from a Lead
- Immediately see which Email Activities and Notes have attached documents (paperclip icon appears) and immediately see the names of the documents
- Quickly open attached documents directly from Summary screens
